THE JAPAN BUSINESS ASSOCIATION IN VIETNAM

SOCIALIST REPUBLIC OF VIETNAM

Independence – Freedom - Happiness

No. 07/2018JBAV

Hanoi, March 1st, 2018

Re: Additional point of view for draft circular 11

Your Excellency Vice Minister Truong Quoc Cuong,

The Japan Business Association in Vietnam (JBAV) consists of 691 Japanese-invested member companies (as of 01/03/2018) operating in Vietnam in various sectors, including the pharmaceutical industry. We are delighted to acknowledge that Japan has ranked among the countries with highest direct investments in Vietnam over the last 10 years. Looking to the future, we believe that our two nations' partnership will continue to be strengthened, creating more favorable conditions for enterprises from both our countries to cooperate even more successfully.

JBAV have received the notification on the draft circular for dugs tender in medical facilities. The main contests especially on new classification are welcome for us that we can supply higher quality product to Vietnamese patients appropriately. But the latest draft seems not to include on the classification for products of domestic manufacturer, which are outsourced by another domestic manufacturer with PIC/S-GMP standard.

Since outsourcing pharmaceutical products mainstream worldwide recently to achieve sustainable supply and efficient investment. This trend may become common within Vietnamese pharmaceutical industry in coming years, due to the demand for upgrading drugs quality with higher GMP standard such as PIC/S GMP but deficiency in financial capability, it would be reasonable to consider including this case in the new circular to provide better medicine with reasonable price;

Therefore, JBAV proposes the clarification of drug that the products that are outsourced in PIC/S GMP standard could classified in Group 2.

It would be appreciated if DAV could take this concern into consideration while preparing the new circular.
